The religion of our great nation must have leaders, worthy leaders. There are things, events and ceremonies, that require a person of great trust. The nation hath decided to choose trustworthy people for those positions and give them certain ranks. Full of respect do we call the leader of the Shrine of Balance our Great Hierophant. Only the Great Hierophant can perform the important ceremonies at the Grand Shrine of Balance. During those ceremonies, however, he receives help from the leaders of the Shrine of Order and Chaos. They have the rank of Order Hierophant and Chaos Hierophant.

All three have assistants to help them with their duties; these are the sub-leaders. These assistants are of high rank also and we give them the title of Master. These Masters are the leaders of our Temples. Each one of them is authorized to perform ceremonies in their own Temple.
